UNITEST
MARINE SIMULATORS

Certificate No. IST 43/2026

This is to certify that

Mr. Nikolaos Diakakis

have extensive experience in the educational use of Unitest marine engineering simulation software. Unitest confirms that they possess the technical knowledge and practical competence required to conduct training for mechanical and marine engineering educators in the operation and educational use of Unitest Engine Room Simulators.

This certification is based on their long-standing cooperation with Unitest and continuous use of Unitest simulation software in educational and professional training activities.
